

Directions from the Marsh Harbour Airport to Casuarina Point - Abaco Palms Properties.

As you leave the airport, remember to KEEP LEFT! About 300-400 yards from the terminal, you will come to a round-a-bout where you will go left $\frac{3}{4}$'s of the way around it and head south. (If you are going to town first, you go left on the circle to the second road ($\frac{1}{4}$ of the circle) and head north.) To Casuarina Point: Drive south on the highway for about 14.8 miles and the entrance to Casuarina Point will be on your left. (The mainly straight Great Abaco Highway will curve right at this point, making the entrance easier to notice.) There is a 'Welcome to Casuarina Point' sign and a street light at the entrance. Turn left and you will drive a little more than a mile and come to a sharp left curve when you reach the beach. After the curve Camp David will be the third house on the right. The 2nd house past Camp David is Kokomo, then Calypso, and after 3 more lots/houses, Abaco Palms.
